Re: *IBFS File No.SAT-MOD-20200417-00037*

Dear Ms. Dortch:

This is to inform you that on January 4, 2021, the undersigned from Space Exploration Holdings, LLC ("SpaceX") spoke via telephone to Karl Kensinger, Acting Chief of the International Bureau's Satellite Division. On this call, SpaceX confirmed that if it receives the proper authorization, its forthcoming Transporter-1 mission will include 10 Starlink satellites targeted for operation in polar orbits. SpaceX also urged the Commission to act expeditiously on the underlying modification request to bring the benefit of even more high speed, low latency broadband service to U.S. consumer in the polar regions and beyond.

Sincerely,

/s/ Gardner Foster
